SUMMARY

Flutter Developer with hands-on experience in building scalable, production-ready cross-platform mobile applications using Flutter, REST APIs, Firebase/Supabase, and GetX. Proven expertise in translating complex UI/UX designs into responsive interfaces, architecting clean codebases with MVVM, and optimizing application performance through professional internship and end-to-end project development. Committed to engineering reliable, user-centric mobile solutions and adopting industry-standard engineering practices.

EXPERIENCE

Flutter Developer Intern

Dream71 Bangladesh Ltd, Dhaka | Aug 2025 – Dec 2025

- Developed and maintained cross-platform mobile applications using Flutter.
- Implemented responsive UI/UX based on design requirements.
- Integrated REST APIs and handled API data in Flutter applications.
- Worked with senior developers to debug and resolve application issues.
- Assisted with application testing and performance improvements.

Research Assistant

Southeast University, Dhaka | Nov 2024 – May 2025

- Conducted research on Breast Cancer Detection under the supervision of Md. Mizanur Rahman.
 - Collected and analyzed data using the Support Vector Machine (SVM) algorithm.
 - Assisted in experiment design, methodology development, and hypothesis testing.
-

SKILLS

- **Programming Languages:** Python, Dart.
 - **Cross Platform:** Flutter.
 - **State Management:** GetX, Provider.
 - **Backend / APIs:** REST, Firebase, Supabase.
 - **Database:** SQLite
 - **Architecture:** MVVM
 - **Tools:** GitHub, CI/CD, Visual Studio Code, Xcode, Figma, Postman.
-

EDUCATION

BSc in Computer Science and Engineering

Southeast University - Dhaka
July 2021 - Feb 2026

Higher Secondary School Certificate

Govt. Mujib College - Sakhipur
2018 - 2020

LANGUAGES

- Bangla
- English

PROJECTS

Blood Donation | Firebase, Supabase, GoRouter, MVVM

- Built an emergency donor-recipient network featuring dynamic location matching and blood group filtering.
- Implemented secure user authentication, profile management, and real-time push notifications for urgent donation requests.
- Structured navigation using GoRouter and maintained modular business logic with MVVM architecture.

Task Manager | REST API, HTTP, Material Design 3, MVVM

- Developed a complete task tracking system supporting CRUD operations backed by a remote REST API.
- Built custom state handlers for loading, empty and network error states following Material Design 3 guidelines.

Product Inventory System | REST API, SQLite, HTTP, Git

- Created an inventory management tool enabling batch product additions, stock tracking, and real time updates via REST endpoints.
- Ensured data persistence and quick caching using SQLite for offline first capabilities.

MHS Store (E-Commerce App) | GoRouter, GetX, Firebase, MVVM,

- Architected a full featured e-commerce application with product cataloging, cart operations, and streamlined checkout workflows.
- Utilized GetX for reactive state management, persistent routing, and instant UI updates without performance lag.
- Integrated Firebase backend services for cloud storage, user authorization, and data synchronization.

PUBLICATIONS

Machine Learning for Breast Cancer Classification: A Comparative Study of Grid Search-Optimized SVM, Random Forest, and XGBoost — Published in IEEE Xplore.

PROFESSIONAL TRAINING & CERTIFICATIONS

- **App Development with Flutter & AI** – Completed professional training conducted by **Ostad**. Gained hands-on experience in Flutter, Dart, Firebase, REST API integration, state management, responsive UI development and AI-powered mobile application development.
- **Corporate Communication** – Attended professional training organized by the Department of Career & Professional Development Services (CPDS), November 2022.
- **Google Flutter & Dart** – Completed professional training conducted by The Digital Adda, January 2024. Credential ID: DA/GFD/23/12326.
